Glendive Medical Center is known for offering many programs to benefit GMC staff members. One of the newest programs is the “Grateful Patients Program.” This program is a way for patients and customers to contact the Foundation to compliment the services at GMC. Some patients even choose to include a donation with their note as a way to say “thank you.”

In March, Jeff and Randi Stockwell both received Grateful Patients’ recognition. One of several husband and wife teams at GMC, the Stockwells were both working the weekend shift in the Hospital Emergency Room.

All gifts to GMC’s Grateful Patients Program are used to improve areas with high patient traffic. For more information on how you can become a Grateful Patient, please contact Foundation Director Carol Condon at 406.345.8996.

In September, GMC and Billings Clinic finalized an affiliation agreement. The agreement covers a wide spectrum of ways to collaborate that are intended to enhance patient care in Glendive and the surrounding areas. The two organizations will work jointly to recruit physicians to expand access and clinical services for the Glendive region.

Last year, volunteers provided over $456,000 in benefits. GMC volunteers provided a $222,000 worth of medical equipment and other hospital supplies.

Our volunteers love to serve and give to a cause greater than themselves. They lighten the load of the staff and brighten the days of our patients!

For more information about volunteering at GMC please contact Vicki Stockwell, Volunteer Coordinator, at 406.345.3363 or vstockwell@gmc.org.

Support from the Community

Support from the Community
In 2013, GMC provided more than $387,000 in charity care, and in the past five years provided more than $1.8 million in charity care. All care that we provide is based on need. Our charity care program was developed to provide access and care to those experiencing a financial burden from health care costs. The graph below depicts GMC’s charity care for the past five years.

It was such a blessing to be able to return to the GMC region and not have to travel. I want to thank Dr. Scheer with Ortho Montana, the Surgery staff, my other care providers, and my family for the wonderful care I received. I hope to never need to return in the future, but if I was a family member or a friend, I would highly recommend GMC.

David Linn

Focused on achieving the highest level of quality, safety and compassion and make sure my patient experience was an incredible one. The best part was being able to return to the GMC region and not have to travel. I want to thank Dr. Scheer with Ortho Montana, the Surgery staff, my other care providers, and my family for the wonderful care I received. I hope to never need to return in the future, but if I was a family member or a friend, I would highly recommend GMC.

Dear Friends & Neighbors,

We continue to be blessed to be in such a great community and a healthier community.

Focused on achieving the highest level of quality, safety and committed to focusing on patient-centered care, which is improving and growing quality healthcare options. GMC successfully recruited four medical providers during the past year who joined our team of highly skilled providers.

In June, GMC began a partnership with Ortho Montana. We are working with them to aggressively recruit an orthopedic specialist to our region. In September, the GMC Board of Directors and Billings Clinic approved a joint venture with the University of Montana to expand access and services for the Glendive region.

In 2013, GMC provided more than $10 million in total community benefit. GMC remains committed to providing quality medical care and an important part of providing a variety of community benefit is our investment in providing services including scholarships, valued healthcare services and health screenings.
